

# thyme

Improve your cash flow  
with our Zapper  
application integration.

---

NOW IT'S EASIER TO GET PAID

sage

Business Partner

## ZAPPER INTEGRATION

If you are using Sage 200 Evolution and you have customers that pay you, then this application is for you. We have joined forces with Zapper and created an application integration that will allow your customers to pay using zapper directly from your quotes, invoice or statements.

# Give your clients more than one payment option

## FEATURES

The value from the quote, invoice and statement pulls through to the Zapper transaction.

The payment will reflect the Quote, Invoice or statement number on your bank statements making it easy for you to track.

When the customer pays, it will show them on their proof of payment that they paid your company.

## WHY DO YOU NEED IT?

Give your clients more than one payment option.

You are now able to offer credit card payments to your clients.

Improve your cash flow by giving your customers instant access to pay you straight away.

# Improve your cash flow with our Zapper application integration.

## EASY TO SET UP

-  You create a free account with Zapper.
-  We will install the Zapper application
-  Modify your forms design and you are off

Please note that your terms are strictly Current and the amount due needs to be settled accordingly!

| 180 Days | 150 Days | 120 Days | 90 Days | 60 Days | 30 Days | Current  | Amount Due |
|----------|----------|----------|---------|---------|---------|----------|------------|
| 0.00     | 0.00     | 0.00     | 0.00    | 0.00    | 0.00    | 8,553.13 | 8,553.13   |
